

## THREE FEATHERS ESTATE & VINEYARD

*In the heart of the Chehalem Mountains, at the Northern end of The Willamette Valley, Three Feathers high-elevation vineyards are part of Oregon's most recognized appellation of cool climate wines.*

*Our 155-acre Estate comprises rolling hills from 700 - 1000 ft in elevation which form a natural heat sink, sheltered from winds and capturing summer warmth in its own natural microclimate. Ancient marine soils and respectful farming practices result in rare wines that embody this distinctive region and each growing season.*

*At Three Feathers Estate & Vineyard, we produce handcrafted small-lot wines using only grapes grown on the Estate. Our passion for growing and commitment to authenticity contribute to our mission of creating the best Oregon wines that reflect our terroir.*

<b>HARVEST DATE</b>	October 2020
<b>SUGAR</b>	23 Brix
<b>AGING</b>	6 months in Stainless Steel
<b>PRODUCTION</b>	75 cases
<b>RATINGS</b>	90 Points JamesSuckling.com

#### **AROMAS AND FLAVORS**

**JamesSuckling.com 90 POINT SCORE** : Sliced apple, pear, melon and apricot stone on the nose. It's medium-to full-bodied, fruity and crisp.

*The grapes were fermented for 6 months on stainless steel, preserving fruit flavors and light acidity.*

#### **THE VINTAGE**

*Our 2020 Pinot Gris is the long-awaited first release of many from Block Three of Three Feathers Vineyard. Planted in 2014, these vines have been pushing roots into the fine iron-rich Laurelwood soil for six years. Thanks to our netting strategy, the berries came to perfect ripeness and we had enough gorgeous grapes to make this every exception wine.*

*2020 was an excellent growing season on Chehalem Mountains. Following bud break, we had dry weather for the next 10 weeks; the only rain came mid-September and harvest was sunny and clear.*
